

CLOVER CLOTHING

Website Audit Report

Assessed against: Revenio Next.js Assessment Task | Date: June 14, 2026 | URL: clover-clothing.vercel.app

IMPLEMENTED	PARTIAL	NOT IMPLEMENTED
Feature fully satisfies the requirement	Feature exists but incomplete	Feature is absent or broken

14 Implemented	8 Partial	19 Not Implemented	43% Overall Score
-------------------	--------------	-----------------------	----------------------

1. Landing Page (/)

Requirement	Notes / Evidence	Status
Navbar – logo present	■ Clover Clothing logo found in nav	IMPLEMENTED
Navbar – 4+ routes	Routes exist (Organic Cotton, Premium Cotton, Compare, My Orders, Review) but structured as mega-menu dropdowns, not standard top-level nav links	PARTIAL
Navbar – Login / Register button	Only 'My Account' link is present; no visible Login or Register CTA in the navbar	NOT IMPLEMENTED
Navbar – sticky on scroll	Cannot confirm sticky behaviour from static HTML; no sticky/fixed CSS class evidence	NOT IMPLEMENTED
Navbar – responsive (mobile)	Structure exists but no hamburger/mobile toggle evident from HTML	PARTIAL
After-login dropdown (user info, Add Product, Manage Products)	No auth-gated dropdown found; login system not present	NOT IMPLEMENTED
Hero – headline	'Discover Your Style' heading present	IMPLEMENTED
Hero – subtitle / description	No explicit subtitle text found alongside the headline	PARTIAL
Hero – primary CTA	'Shop Now' button / link present	IMPLEMENTED
Hero – optional background image/slider	Hero appears to be a carousel (CTA repeated 4 times suggesting 4 slides)	IMPLEMENTED
4 Relevant sections (features / items / testimonials / banner)	Featured products grid and Top Categories section exist; social section present. Missing clear testimonials/features section for a full 4-section count beyond hero	PARTIAL

Requirement	Notes / Evidence	Status
Cards – uniform layout with hover/focus states	Product cards show image + name + price, but 'View Details' button absent; hover states unverifiable without JS	PARTIAL
Footer – links present	Services, Company, Legal link groups found	IMPLEMENTED
Footer – social icons	Facebook, Instagram, TikTok links with icons	IMPLEMENTED
Footer – copyright	No copyright line (© year) found in footer HTML	NOT IMPLEMENTED
Footer – consistent spacing	Footer sections appear well-structured	IMPLEMENTED

2. Items Page (/items)

Requirement	Notes / Evidence	Status
Route exists at /items	Products page is at /products, not /items as required	NOT IMPLEMENTED
Search bar	No search input found on the /products page	NOT IMPLEMENTED
Filtering – at least 2 fields (category, price, rating, etc.)	Only a price range filter (■0–■5000) is present; category/rating filter missing	PARTIAL
Display minimum 6 items	Page shows '0 Products' – no items rendering (likely missing static data or DB connection)	NOT IMPLEMENTED
Responsive grid layout	Layout toggle (2/3/4-column) UI exists but renders nothing without product data	PARTIAL
Each card – image or icon	No cards rendered; homepage featured section shows images but not /products page	NOT IMPLEMENTED
Each card – title	Not rendered	NOT IMPLEMENTED
Each card – short description (1-2 lines)	Not rendered	NOT IMPLEMENTED
Each card – 'View Details' button	Not present on any product card	NOT IMPLEMENTED

3. Item Details Page (/items/[id])

Requirement	Notes / Evidence	Status
Dynamic route /items/[id] exists	Route is /products/[id], not /items/[id]. Visiting /products/organic returns 'Product Not Found'	NOT IMPLEMENTED
Shows – Title	Page returns 'Product Not Found'; no content shown	NOT IMPLEMENTED
Shows – Image	Not rendered	NOT IMPLEMENTED

Requirement	Notes / Evidence	Status
Shows – Full description	Not rendered	NOT IMPLEMENTED
Shows – Key information / Specifications	Not rendered	NOT IMPLEMENTED
Shows – Related items	Not implemented	NOT IMPLEMENTED
Shows – Additional info (price / date / category)	Not rendered	NOT IMPLEMENTED
Back button to Items page	Not present	NOT IMPLEMENTED

4. About Page (/about)

Requirement	Notes / Evidence	Status
Route /about exists	Fetching /about returns empty response – page does not exist or has no content	NOT IMPLEMENTED
Title	Page not found	NOT IMPLEMENTED
Description	Page not found	NOT IMPLEMENTED
Optional image or section	Page not found	NOT IMPLEMENTED

5. Authentication (Firebase)

Requirement	Notes / Evidence	Status
Email & Password login / register	No /login or /register route found; no auth form visible in navbar or any page	NOT IMPLEMENTED
Google login (recommended)	Not implemented	NOT IMPLEMENTED
User state stored (Context API / state)	No evidence of auth context or user state management	NOT IMPLEMENTED
Redirect to / after login	Cannot test without login implementation	NOT IMPLEMENTED

6. Protected Page: Add Items (/items/add)

Requirement	Notes / Evidence	Status
Route /items/add exists (protected)	Route not found; no equivalent /products/add exists either	NOT IMPLEMENTED
Redirect unauthenticated users to /login	No auth guard or /login route implemented	NOT IMPLEMENTED
Form field – Title	Form page does not exist	NOT IMPLEMENTED

Requirement	Notes / Evidence	Status
Form field – Short description	Form page does not exist	NOT IMPLEMENTED
Form field – Full description	Form page does not exist	NOT IMPLEMENTED
Form field – Price / date / priority / relevant field	Form page does not exist	NOT IMPLEMENTED
Form field – Optional image URL	Form page does not exist	NOT IMPLEMENTED
Submit button	Form page does not exist	NOT IMPLEMENTED
Success toast / confirmation message	Not implemented	NOT IMPLEMENTED

7. Protected Page: Manage Items (/items/manage)

Requirement	Notes / Evidence	Status
Route /items/manage exists (protected)	Route not found	NOT IMPLEMENTED
List all products in table/grid	Not implemented	NOT IMPLEMENTED
Each row/card – View action	Not implemented	NOT IMPLEMENTED
Each row/card – Delete action	Not implemented	NOT IMPLEMENTED
Clean, readable, responsive layout	Page does not exist	NOT IMPLEMENTED

Overall UI Guidelines

Requirement	Notes / Evidence	Status
Layout & Responsiveness – consistent spacing, clean layouts	Homepage layout is clean and has responsive hints, but products page is broken and several pages are empty	PARTIAL
Typography & Colors – clear hierarchy, readable fonts	Homepage uses clear heading hierarchy and consistent green/white palette	IMPLEMENTED
Cards, Lists & Forms – uniform cards, hover/focus, responsive grids	Homepage product cards are consistent; products page renders no cards; forms not implemented	PARTIAL
Interactions & Consistency – hover/focus, micro-animations	Cannot verify interactions without JavaScript rendering; visual consistency breaks across empty pages	PARTIAL

Technologies & Submission Requirements

Requirement	Notes / Evidence	Status
Next.js (App Router) used	Deployed on Vercel with Next.js; App Router evident from URL structure	IMPLEMENTED
Firebase Authentication integrated	No Firebase auth found on any page	NOT IMPLEMENTED
Live demo on Vercel	Deployed at clover-clothing.vercel.app	IMPLEMENTED
GitHub Repository link	Not verifiable from live site alone; should be in README or submission	PARTIAL
README.md – project description, key features, setup, route summary	Not verifiable from live site; should accompany submission	PARTIAL

Priority Action Items

The following items represent the highest-impact gaps. Fixing these will bring the project closest to the assessment requirements.

P1 – Critical

- Implement Firebase Email/Password auth + /login and /register pages
- Create /items route (or rename /products → /items) with working product data (min. 6 items)
- Add search bar + 2nd filter field (category/rating) to items page
- Build /items/[id] dynamic product detail page with all required fields
- Create /items/add protected form page with all 5 form fields + success toast
- Create /items/manage protected page with product table (View + Delete actions)
- Create /about page with title, description, and optional image

P2 – High

- Add Login/Register button to navbar; implement post-login dropdown (user info, Add Product, Manage Products)
- Make navbar sticky (position: sticky / fixed)
- Add 'View Details' button to every product card
- Add mobile hamburger menu toggle for responsive nav
- Add footer copyright line

P3 – Medium

- Complete hero subtitle text
- Add testimonials or features section to complete the 4 relevant homepage sections
- Add Google login option
- Ensure product images/cards render on /items page

- Add back button on product detail page
